Nel nostro nome c'è il racconto di una storia unica

Nel nostro nome c'è il racconto di una storia unica come quella del territorio e delle persone che l'hanno generata; una storia fatta di concretezza e solidità, come le montagne che contornano il nostro paesaggio.

C'è l'espressione della capacità di creare materiali ceramici di qualità superiore, in grado di coniugare bellezza ed innovazione, performance superiori ed attenzione alla sostenibilità.

È l'orgoglio di continuare con passione ed intraprendenza la tradizione della ceramica sanitaria Made in Italy, affiancando le più avanzate tecnologie produttive ad oltre 50 anni di esperienza.

Our name tells a unique story: the story of the land and people who wrote it; a concrete, solid story, just like the mountains that dominate our landscape.

This story tells of an ability to create high-quality, high-performing ceramics combining aesthetics and innovation, with an eye to sustainability.

It's a story we're proud of, as we carry on the tradition of making Italian bathroom ceramics with passion and courage, combining our 50+ years of experience with advanced manufacturing technology.

CERAMICA DOLOMITE
CERAMICA DOLOMITE

Ceramica Dolomite, fondata nel 1965 a Trichiana (ora Borgo Valbelluna) ai piedi delle Dolomiti Bellunesi, è da sempre espressione del "saper fare" prodotti in ceramica sanitaria che uniscono la passione ed il know-how delle nostre persone con le più innovative ed automatizzate tecnologie produttive.
La costante attenzione all'evoluzione del design ed alla qualità dei prodotti, oltre all'attenzione per il servizio al cliente, ci ha permesso negli anni di diventare un marchio di riferimento nel mercato dell'arredobagno e dei prodotti per la collettività.
Oggi Ceramica Dolomite produce nel suo stabilimento di 130.000 m², di cui 70.000 m² coperti, collezioni da bagno, articoli per la lavanderia, per la cucina e per la collettività, combattendo gli sprechi e riciclando gli scarti nel pieno rispetto dell'ambiente.

Ceramica Dolomite was founded in 1965 in Trichiana (now Borgo Valbelluna), at the foot of the Belluno Dolomites. Experts in bathroom ceramics since the beginning, the company combines a passionate and skilled workforce with innovative, automated manufacturing technology. Attentive to product quality and evolutions in design, and firmly focused on customer service, over the years the company has become a leading brand in the market for bathroom furniture and public convenience products. Today, Ceramica Dolomite produces bathroom and products for bathrooms, kitchens and collective spaces at its factory, which extends over approximately 130,000 m² in total, of which 70,000 m² covered, reducing waste and recycling waste products to protect the environment.

Dal 1965, espressione del “Saper fare” ceramica

1960

LA FONDAZIONE
Ceramica Dolomite nasce nel 1965 dal progetto industriale di 3 manager del settore, con il supporto finanziario di due famiglie di imprenditori e degli aiuti economici che lo Stato distribuì a seguito della tragedia del Vajont. Nel primo anno produce 27.000 pezzi tra lavelli da cucina, piatti doccia e lavatoi impiegando 100 dipendenti.

COMPANY FOUNDED
Ceramica Dolomite was founded in 1965 by three managers in the sector. They received financial support from two families of entrepreneurs, and benefitted from state aid following the tragic landslide in Vajont. In their first year, they made some 27,000 products, from kitchen sinks to shower trays and washbasins, and employed 100 people.

1970

LO SVILUPPO INTERNAZIONALE
Nel 1969 inizia la produzione delle serie da bagno; l’alta qualità dei prodotti e l’attenzione per il servizio al cliente unite all’incremento della forza lavoro (i dipendenti raggiungono le 500 unità) consentono una rapida crescita nel mercato italiano e contemporaneamente l’inizio dell’espansione all’estero.

INTERNATIONAL EXPANSION
In 1969, the company began manufacturing bathroom suites. High-quality products and a customer-oriented service, plus an increased workforce (500 employees) meant the company grew quickly in Italy and began expanding overseas.

1980

L’EVOLUZIONE DEL DESIGN
Ceramica Dolomite lancia sul mercato il primo lavabo d’arredo a semincasso, destinato a modificare l’organizzazione dello spazio nel bagno. Inizia in quegli anni la collaborazione con famosi designer quali Marco Zanuso, Luigi Molinis, e più tardi Renzo Piano. Il numero dei dipendenti supera quota 1.000.

EVOLVING DESIGN
Ceramica Dolomite launched the first semi-recessed washbasin, which would change the way the bathroom space is organised. Collaborations began with famous designers such as Marco Zanuso, Luigi Molinis and, later, Renzo Piano. The workforce surpassed the 1,000 mark.

1990

LA CRESCITA CONTINUA
Negli anni ‘90, l’acquisizione di Ceramiche Senesi e Tenax contribuisce alla forte crescita sul mercato. Lo stabilimento di Borgo Valbelluna supera la produzione annuale di 1.000.000 di pezzi grazie all’introduzione di un innovativo nuovo forno a rulli per i lavabi. Nel 1995, Ceramica Dolomite è la prima azienda italiana del settore a ottenere la certificazione ISO 9001 per la qualità dei propri prodotti.

CONTINUOUS GROWTH
In the 1990s, the company acquired Ceramiche Senesi and Tenax, which led to significant market growth. Annual production exceeded one million parts at the Borgo Valbelluna site, with the introduction of an innovative new roller kiln for washbasins. In 1995, Ceramica Dolomite was the first Italian company in the sector to obtain ISO 9001 certification for the quality of its products.

Ceramic sanitaryware experts, since 1965

2000

LE NUOVE TECNOLOGIE
Nel 1999 Ceramica Dolomite entra a far parte di American Standard Companies, multinazionale americana. Parallelamente, prosegue lo sviluppo tecnologico dello stabilimento: gli impianti altamente automatizzati consentono l'eliminazione delle operazioni più faticose ed usuranti, lasciando ai nostri artigiani le attività manuali dedite al perfezionamento delle finiture.

NEW TECHNOLOGY
In 1999, Ceramica Dolomite became part of the US multinational American Standard Companies. In parallel, the technology used on site continued to develop: highly automated systems meant skilled workers could focus on manually perfecting the finishes, instead of carrying out the more strenuous, laborious tasks.

2010

L'ATTENZIONE ALLA SOSTENIBILITÀ
La sostenibilità e l'equilibrio dell'ecosistema è sempre stato uno dei capisaldi di Ceramica Dolomite. Oltre alla lotta agli sprechi e al riciclo degli scarti di produzione, nel 2013 viene installato l'impianto di cogenerazione ad alto rendimento: il vapore emesso dai forni genera l'energia necessaria alle attività produttive e al contempo alimenta l'illuminazione pubblica del paese di Borgo Valbelluna.

FOCUS ON SUSTAINABILITY
Sustainability and a balanced ecosystem have always been an important part of Ceramica Dolomite's business, which focuses on reducing waste and recycling manufacturing waste products. In 2013, a high-efficiency cogeneration plant was installed. The steam emitted by the kilns generates the energy needed for manufacturing, while also powering street lighting in Borgo Valbelluna.

2020

UNA NUOVA SFIDA
Nel 2022 lo stabilimento ed il marchio vengono rilevati da una cordata di 4 soci, espressione della migliore imprenditoria del Nord-Est, assieme ad Invitalia. L'obiettivo è rilanciare il business valorizzando le competenze per riportare Ceramica Dolomite ad essere il player di riferimento della ceramica sanitaria Made in Italy. Il nuovo logo è l'espressione della volontà di proiettare nel futuro oltre 50 anni di tradizione, sfide e successi.

NEW CHALLENGES
In 2022, the site and brand were taken over by a group of four partners – an example of the North-eastern Italy's entreprising spirit at its best – together with Invitalia. The aim was to relaunch the business, bringing the company's skills back into focus, to turn Ceramica Dolomite into a key player in Italian sanitary ware ceramics once more. The new logo represents a desire to take 50 years of history, with all of its challenges and successes, into the future.

100% proprietà italiana
100% design italiano
100% produzione italiana

Dal 2022 Ceramica Dolomite è tornata ad essere una azienda indipendente di proprietà completamente italiana che investe nello sviluppo delle persone e nello stabilimento di Borgo Valbelluna dove vengono prodotti la totalità degli articoli di ceramica concepiti e disegnati da designer italiani.

100% Italian-owned
100% Italian design
100% Italian production

Since 2022 Ceramica Dolomite has once again become an independent, wholly Italian-owned company that invests in the development of its people and in the Borgo Valbelluna factory where all ceramic products, conceived and shaped by Italian designers, are manufactured.

Ceramica Dolomite ha ricevuto i premi ADI Ceramics & Bathroom Design per la strategia di prodotto ed il premio Iconic Awards 2024 Interior Products.

Ceramica Dolomite received the ADI Ceramics & Bathroom Design award for product strategy and the Iconic Awards 2024 Interior Products.

LA NATURA È NEL NOSTRO NOME, CI ISPIRA: NOI RICAMBIAMO RISPETTANDOLA

Per Ceramica Dolomite fare innovazione significa anche trovare processi e soluzioni produttive che aiutino a proteggere la natura e contribuiscano ad un futuro più verde e sostenibile.
Ci impegniamo a ridurre gli sprechi di materia prima, con l'implementazione di processi che ne ottimizzano l'uso, e adottando strategie di riciclo e riutilizzo degli scarti di produzione.
Sistemi avanzati di recupero e riciclo dell'acqua all'interno del nostro stabilimento permettono di ridurre notevolmente il consumo di acqua potabile, minimizzando l'impatto sulle risorse idriche locali.
Stiamo adottando fonti di energia rinnovabile ma già dal 2013 abbiamo installato un impianto di cogenerazione ad alto rendimento: oltre a servire al processo produttivo, l'energia prodotta alimenta una parte dell' illuminazione pubblica delle zone limitrofe.

NATURE'S IN OUR NAME. IT'S WHAT INSPIRES US. IT'S OUR DUTY TO PROTECT IT

At Ceramica Dolomite, innovation is also about finding solutions and production processes that help protect nature and contribute to making a greener, more sustainable future.
We are committed to reducing raw-material waste, implementing processes to optimise their use and adopting strategies for reusing and recycling production waste.
Advanced water recovery and recycling systems on site have helped us to significantly reduce water consumption, minimising our impact on local resources.
We currently use renewable energy sources, and have been using a high-efficiency cogeneration system, installed in 2013. In addition to being used for our production processes, the energy produced powers some of the street lighting in the surrounding area.

LA QUALITÀ È NEL NOSTRO DNA: SIAMO ATTENTI A FARE BENE, DA SEMPRE

Ci siamo focalizzati, fin dalla nostra ripartenza, sul creare prodotti di qualità superiore, nel pieno rispetto della salute dei nostri dipendenti.
Le due certificazioni internazionali sanciscono il nostro impegno.
ISO 9001 attesta che la Gestione Aziendale è guidata dal Sistema Qualità lungo i suoi processi operativi, e nella commercializzazione dei prodotti;
ISO 45001 certifica come Ceramica Dolomite si impegni a creare posti di lavoro sicuri e salubri, prevenendo infortuni e problemi di salute.

QUALITY IS IN OUR DNA. WE CARE, AND ALWAYS HAVE

Since relaunching, the focus has been on creating high-quality products, while taking care of employees and their wellbeing. This commitment has been recognised in the form of international certification.
***ISO 9001** certification proves that quality management is part of our company operations, through our manufacturing processes, and in the marketing and sale of our products;*
***ISO 45001** certification shows we are committed to creating a safe and healthy workplace, preventing accidents and health problems.*

RC2

Ceramica Dolomite è il luogo dove artigianalità e tecnologia convivono in armonia.
Le sapienti mani dei mastri ceramisti e robot di ultima generazione si passano il testimone lungo il processo produttivo: i sistemi di automazione sollevano le persone dai lavori più usuranti e ripetitivi, per lasciare loro l'attenzione al dettaglio propria della delicata fase di rifinitura e controllo.
Il risultato è la creazione di un prodotto di qualità superiore.

Ceramica Dolomite is where craftsmanship and technology coexist. The skilful hands of master ceramists and latest-generation robots pass the baton along the production process. Automated systems take care of the most laborious, repetitive tasks, leaving humans to deal with the all-important details during the delicate finishing and quality-control stages.
The result is a better quality product.

Aqua-Fall

L'ACQUA PRENDE FORMA
Il sistema rimless di Ceramica Dolomite dà forma all'acqua, la doma e la direziona, facendola scorrere su una ampia superficie, e nello stesso tempo disciplinandone il flusso.

WATER GETS SHAPED
Ceramica Dolomite's rimless system morphs the water, taming it and directing it, allowing it to flow across a large surface area, while also leading the flow.

Aqua-Fall

Il sistema Aqua-Fall di Ceramica Dolomite, rispetto ai tradizionali vasi con brida chiusa, garantisce:

PULIZIA PIÙ ACCURATA
L'acqua fluisce da un'elegante copertura in ceramica e viene convogliata all'interno del vaso fino al bordo anteriore, lavandone oltre il 90% della superficie.

UNA MIGLIORE IGIENE
L'assenza della brida chiusa ripensa il design della parete interna del vaso, liscia e senza bordo, evitando così la formazione di muffe e batteri.

ASSENZA DI SCHIZZI
La particolare geometria distribuisce l'acqua in maniera perfettamente aderente al vaso, per una pulizia più ampia senza il rischio dello splashing, indipendentemente dalla portata dello scarico, come da test eseguiti secondo normativa vigente.

SUPERIORE SILENZIOSITÀ
Grazie al particolare flusso guidato dell'acqua, il sistema rimless di Ceramica Dolomite rende l'ambiente bagno più silenzioso.

SOSTENIBILITÀ
Aqua-Fall permette la perfetta pulizia del vaso anche con uno scarico d'acqua parziale.

Compared to traditional bowls with a box rim, the Aqua-Fall system by Ceramica Dolomite guarantees:

BETTER CLEANING
Water flows from an elegant ceramic cover and is conveyed inside the bowl to the front edge, washing over 90% of the surface.

BETTER HYGIENE
The rimless system means a new design for the inner wall of the bowl, left smooth and rimless. This stops mould and bacteria from forming.

NO SPLASHES
The specially shaped bowl means water is perfectly distributed, for better cleaning and no splashes, regardless of the drain flow rate, as tested in line with current regulations.

QUIETER SPACES
Water is carefully channelled around the bowl with Ceramica Dolomite's rimless system, making for a quieter bathroom space.

SUSTAINABILITY
Aqua-Fall ensures the bowl is perfectly clean, even when water is only partially drained.

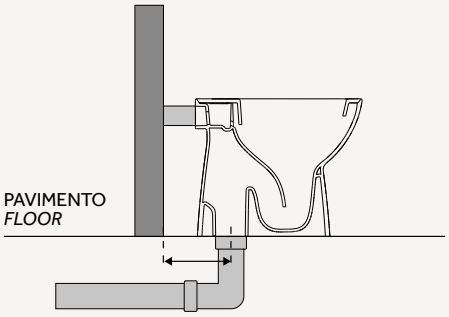

RISTRUTTURAZIONI SENZA INTERVENTI STRUTTURALI

Lo **scarico traslato** di Ceramica Dolomite è una caratteristica specifica dei vasi Back to Wall che permette l'alloggiamento di una curva tecnica finalizzata ad installare il vaso anche in presenza di un preesistente scarico a terra, tipico degli impianti del passato.

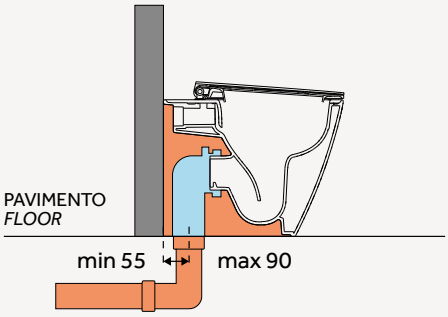

UPGRADE WITHOUT ANY STRUCTURAL WORK

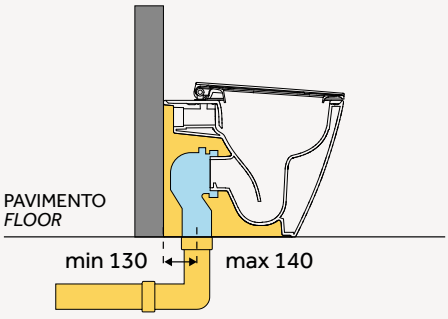

A specific feature of Ceramica Dolomite's back to wall bowl is the position of the drain. It allows you to use a bowl connector, meaning you can install the bowl even where there is already a floor drain, as in older installations.

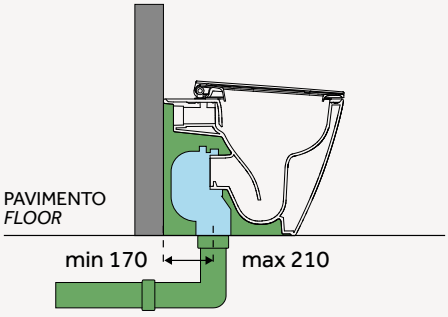

SCARICO PREESISTENTE *EXISTING DRAINAGE SYSTEM*

SCARICO TRASLATO *SHIFTED OUTLET*

Con lo scarico traslato il pavimento è salvo: sarà sufficiente scegliere la corretta combinazione di curve tecniche e raccordi per installare il vaso senza rompere le piastrelle.

By moving the drain position as shown, there's no need to touch the flooring. All that's required is the right combination of bowl connectors and couplings to install the bowl without having to take up any floor tiles.

PULIZIA ED IGIENE

Tutti i prodotti di Ceramica Dolomite sono progettati per semplificare le operazioni di pulizia e garantire così la massima igiene degli articoli sanitari.

EFFORTLESS CLEANING AND HYGIENE

All Ceramica Dolomite products have been carefully designed to simplify cleaning – to ensure your sanitary ware is perfectly hygienic.

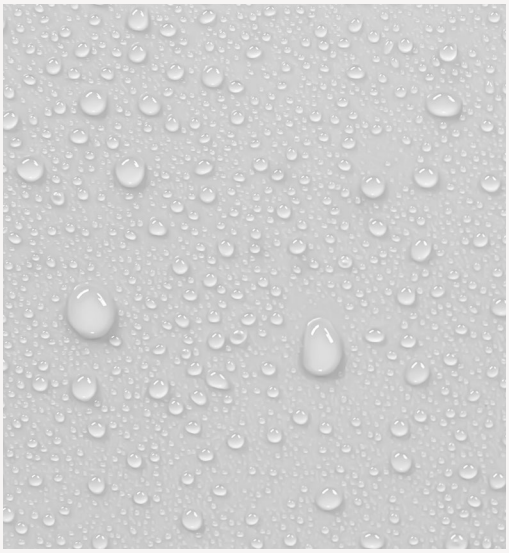

SMALTO IDROREPELLENTE

L'idrorepellenza degli smalti Ceramica Dolomite li rende facili da pulire, evitando la formazione e il deposito di calcare e sporco.

WATER-REPELLENT GLAZE

Ceramica Dolomite enamels are water repellent, making them easy to clean and preventing dirt and limescale from depositing and building up.

FISSAGGI NASCOSTI: PULIZIA DI FORMA E DI SOSTANZA

Tutti i nuovi vasi e bidet, sia sospesi che a terra, sono dotati di fissaggi invisibili che, oltre ad esaltare il design delle forme, permettono di installare correttamente il sanitario, semplificando anche il lavoro di pulizia.

HIDDEN FIXTURES: FOR CLEAN LINES AND A CLEAN PRODUCT

All new toilets and bidets, whether wall-hung or floor-standing, have hidden fixtures. As well as giving the products a sleek design, they make the sanitary ware easy to install correctly and also simplify cleaning.

SGANCIO RAPIDO DEL SEDILE

Tutti i nuovi sedili a chiusura rallentata sono dotati di sistema a sgancio rapido. Estrarre il sedile dal suo alloggiamento diventa semplice, facilitando la completa pulizia delle superfici.

QUICK-RELEASE SEAT

All new, soft-close seats are fitted with a quick-release mechanism. The seat is quick and simple to take off, making it easy to clean all surfaces.

DEMY

Demy coniuga il minimalismo dei suoi volumi ad una linea di forza che dal fianco caratterizza tutto l'insieme e la rende una collezione unica.
Il risultato è un prodotto in cui la perfetta armonia delle linee si accompagna alla personalità.

Demy combines the minimalism of its volumes with a line of strength that characterises the whole from the side, making it a unique collection.
The result is a product in which the perfect harmony of lines is matched by its personality.

Piatti doccia
Shower trays

OLTRE SQUASH GEMMA2

I piatti doccia OLTRE si allontanano dall'ordinario entrando in una dimensione unica che li rende protagonisti nel bagno; il loro design è senza precedenti.
Il calpestio viene ripensato OLTRE la sua funzionalità, e lo spazio dell'acqua diventa libero e fluido.

OLTRE shower trays go beyond the ordinary, entering a unique dimension that sees them as the focal point of the bathroom space. Design like you've never seen it before.
The underfoot feel has been taken beyond the functional, and the water flows freely across a fluid surface.

COVER A FILO IN CERAMICA
FLUSH TO FLOOR CERAMIC COVER

ANTISCIVOLO OLTRE IL DESIGN
ANTI-SLIP: MORE THAN DESIGN

Le forme libere e le linee scomposte proprie del design di OLTRE creano dei micro step dalla forma ricercata non casuale, che rinnovano il calpestio di vecchia concezione: da elemento funzionale del piatto doccia è ripensato in un'ottica di design.

Free forms and deconstructed lines typical of the OLTRE design create carefully curated mini steps, for a refined look that reimagines the traditional underfoot feel. No longer just a functional part of the shower tray, it becomes a design feature.

La cover in ceramica della stessa finitura del piatto doccia resta perfettamente a filo con la superficie in continuità con il calpestio, il che lo rende esteticamente impeccabile.

A ceramic cover in the same finish as the shower tray sits perfectly flush with the surface, creating continuity and impeccable aesthetics.

ULTRA GRIP GLAZE

SMALTO NATURALE
NATURAL GLAZE

Studiato internamente nel laboratorio Ceramica Dolomite, si ottiene da un processo di normale cottura senza trattamenti aggiuntivi, ed è frutto di una selezione di diversi minerali di alta qualità e componenti con diversi gradi di granularità che diventano parte integrante dello smalto.

Developed in-house in the Ceramica Dolomite lab, this finish is achieved using a normal firing process – without any additional treatments – by selecting a range of high-quality minerals and components with different degrees of granularity that form an integral part of the glaze.

TONALITÀ ISPIRATA DALLA PIETRA
NATURAL COLOUR

La tonalità dello smalto UGG è unica, un bianco materico a richiamare gli effetti naturali della pietra e i minerali di cui è composto.

The UGG glaze shades are unique. The textural white finish evokes a natural stone effect and replicates the feel of the minerals it is made of.

4 CM - 6 MISURE - 6+1 COLORI
4CM - 6 SIZES - 6+1 COLOURS

4 CM

Semplice e minimale, OLTRE si distingue per soli 4 cm di spessore, perfetto per chi ricerca una soluzione di design.

With a simple, minimalist design, OLTRE stands out for its slim 4 cm build, perfect for creating a pared-down finish.

6 MISURE
6 SIZES

Una proposta di piatti doccia completa per forme e dimensioni. Quadrato o rettangolare, OLTRE è disponibile in 6 dimensioni, con scarico sia su lato destro che sinistro, in grado di soddisfare le diverse esigenze degli spazi d'arredo.

This comprehensive shower tray collection comes in a range of shapes and sizes. Both square and rectangular designs are available in 6 sizes. The drain can be positioned on the left or the right, according to your space requirements.

6+1 COLORI
6+1 COLOURS

La gamma di piatti doccia OLTRE si propone in un'ampia varietà di colori, per adattarsi a tutti gli ambienti bagno. Dal bianco lucido alle nuances di colori opachi di Ceramica Dolomite, fino alla nuova finitura Bianco Ultra Grip Glaze.

The OLTRE shower tray range comes in a wide variety of colours to adapt to all bathroom interiors: from glossy white to Ceramica Dolomite's range of matt colours, through to the new white Ultra Grip Glaze finish.

DIFFERENTI INSTALLAZIONI
DIFFERENT INSTALLATIONS

APPOGGIO
ABOVE FLOOR-LEVEL

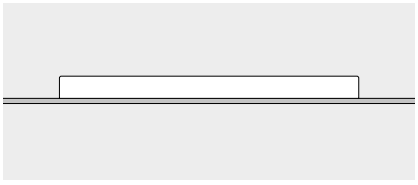

Il bordo inferiore perfettamente lineare permette di installare il piatto doccia Oltre in appoggio a pavimento, assicurando una corretta aderenza alla superficie.

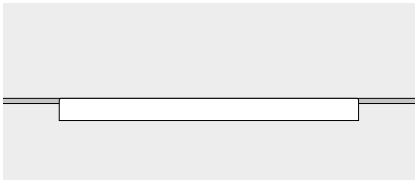

The perfect flatness of the bottom edge allows the above floor-level installation, assuring the correct adherence to the floor surface.

FILO PAVIMENTO
FLOOR-LEVEL

Gli spigoli di Oltre sono progettati per permetterne l'installazione a filo pavimento, assicurando una perfetta continuità tra piatto doccia e superficie del pavimento.

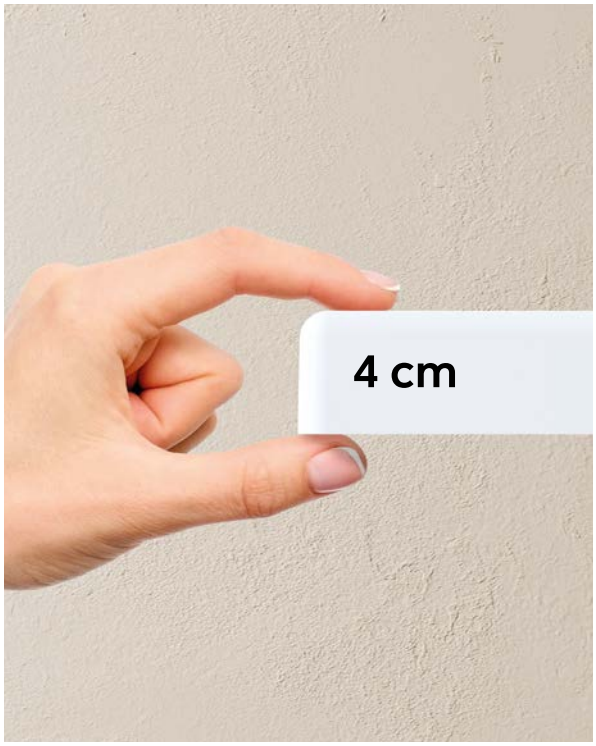

Oltre's edges are designed to allow it to be installed flush with the floor, ensuring the perfect continuity between shower tray and floor surface.

Squash è minimalismo.
Linee pulitissime per questo piatto doccia in ceramica ultra sottile, con solo 4cm di spessore totale. Un design flat dalla superficie liscia, perfetto per chi cerca soluzioni di design, capaci di distinguersi nella loro semplicità.

Squash is synonymous with minimalism.
Ultra-clean lines for an ultra-thin ceramic shower tray, measuring just 4 cm thick in total. This flat, smooth-surface design is perfect for those looking for designs that stand out for their simplicity.

Liscio con grip.
La superficie liscia di Squash è resa antiscivolo grazie all'innovativo processo di lavorazione con tecnologia skid-proof che lo rende più sicuro aumentandone la capacità di attrito quando bagnato.
Questa protezione, invisibile perché integrata con lo smalto superficiale, è permanente e rende il piatto doccia più sicuro.

Smooth, but with grip.
Squash's smooth surface is also non-slip, made using an innovative manufacturing process and skid-proof technology. The result is a safer surface thanks to increased friction when wet.
This invisible protection, integrated into the surface enamel, is permanent and makes your shower tray safe.

Squash è disponibile nella finitura Ultra Grip Glaze. La tonalità dello smalto UGG è unica, un bianco materico a richiamare gli effetti naturali della pietra e i minerali di cui è composto.

Squash is available in Ultra Grip Glaze finishing. The UGG glaze shades are unique. The textural white finish evokes a natural stone effect and replicates the feel of the minerals it is made of.

Versatilità, resistenza e praticità: a ogni ambiente bagno, la soluzione più congeniale.
Piatti doccia disponibili in molteplici forme e misure, adatti a tutti gli ambienti bagno, pensati per durare nel tempo e prodotti rispettando l'ambiente.
Per soddisfare i gusti di consumatori attenti al design e al tempo stesso in cerca di soluzioni funzionali e sostenibili.

Versatility, durability and convenience: for every bathroom, the most suitable solution.
Shower trays available in multiple shapes and sizes, designed to suit all bathrooms, conceived to last and produced in an environmentally sustainable way.
To satisfy the tastes of design-conscious consumers and at the same time in search of functional solutions.

MADDALENA

Revine è la soluzione tre in uno per la lavanderia di casa. Lavatoio capiente e adattabile a qualsiasi spazio per la versatilità delle sue dimensioni; Revine è un pratico contenitore in abbinamento al mobile dedicato e diventa un piano di appoggio grazie all'asse in legno che fa anche da coperchio.
Il tutto senza dimenticare l'eleganza, che lo rende unico nel panorama lavanderia.

Revine is a 3-in-1 solution for your utility space. With a capacious washbasin and versatile size, it adapts to any space. Revine provides practical storage space in combination with the unit below, as well as extra surface space with a wooden board that acts as a lid.
All without neglecting aesthetics, making it a unique product on the market.

L'asse in legno per il lavaggio a mano è l'ausilio che fa la differenza e diventa anche un coperchio da utilizzare come piano di appoggio.

The wooden board for handwashing is the aid that makes the difference and also becomes a cover to be used as a table top.

Il fondo del mobile è in alluminio anti-goccia che ne garantisce qualità e durata nel tempo.

The bottom of the cabinet is made of drip-proof aluminium, which guarantees quality and durability.

All'interno del mobile può essere installato un pratico cestello per biancheria estraibile (optional).

A practical pull-out laundry basket (optional) can be installed inside the cabinet.

ACCESSORIES

I complementi d'arredo firmati Ceramica Dolomite offrono diverse soluzioni per creare un ambiente bagno confortevole e armonioso.

L'ampia gamma di possibilità cromatiche permette di valorizzare lo spazio seguendo le tendenze del design contemporaneo.

The furnishing elements by Ceramica Dolomite offer various solutions to create a comfortable and harmonious bathroom environment.

The wide range of colour possibilities allows the space to be enhanced in line with contemporary design trends.

Jolly

Le Basi JOLLY si contraddistinguono per l'elegante maniglia a gola che, integrata nel pannello frontale, ne sottolinea la linearità delle forme.

The JOLLY units are characterised by the elegant groove handle, which is integrated in the front panel and emphasises the linearity of the shapes.

Pop

Design pulito ed essenziale per le basi POP caratterizzate dal frontale completamente liscio con apertura push /pull.

Clean and essential design for the POP units characterised by a completely smooth front panel with push/pull opening system.

Pure

Nelle basi PURE fianco e top sono uniti con una giunzione appena visibile. Questo accorgimento rende superfluo l'impiego di un ripiano a tamponamento.

The joint between the side and top of the PURE units is barely visible. This makes the use of an additional top cover unnecessary.

MATERIALI

LAMINATI HPL
HPL LAMINATE

I laminati ad alta pressione coniugano le loro eccellenti qualità estetiche con proprietà e virtù di sicuro interesse per chi concepisce o realizza soluzioni di interior design, a partire dalla duttilità e dalla robustezza. I pannelli in HPL sono antibatterici, ignifughi e sono resistenti all'impatto; sopportano bene urti con oggetti contundenti, sono resistenti ai graffi e all'usura e stabili alla luce e ai raggi UV.

High-pressure laminates combine their excellent aesthetic qualities with properties and virtues of interest to those who conceive or realise interior design solutions, starting with ductility and robustness. HPL panels are antibacterial, fireproof and impact resistant; they withstand impacts with blunt objects, are resistant to scratches, abrasions, and stable to light and UV rays.

CDF (**C**ompact **D**ensity **F**ibreboard)

SWISS CDF è un pannello in fibre di legno, compattamente compresso (>1'000 kg/m³) . Con la sua piastra di supporto e la struttura multistrato, SWISS CDF detta nuovi standard nel settore dell'arredamento di interni sia per quanto riguarda il design che la costruzione. Stabilità, resistenza ai graffi, resistenza agli spruzzi e bassa infiammabilità caratterizzano questo naturale materiale di legno.

SWISS CDF is a wood fibre panel, compactly compressed (>1'000 kg/m³) . With its backing plate and multi-layer structure, SWISS CDF sets new standards in interior design and construction. Stability, scratch resistance, splash resistance and low flammability characterise this natural wood material.

LACCATI OPACHI
MATT COLOR LACQUERS

Gamma di 11 colori disponibili. Per una corretta pulizia e manutenzione si consiglia di utilizzare prodotti per vetri o alcool diluito con molta acqua, avendo la cura di asciugare subito la superficie con panni morbidi e non abrasivi. Evitare l'utilizzo di polveri abrasive, ammoniaca, acetone e cere per mobili.

Range of 11 colours available. For proper cleaning, simply use glass cleaning products or alcohol diluted in plenty of water, making sure you dry the surface immediately with a soft and non-abrasive cloths. Avoid using scouring powders , ammonia , acetone and furniture waxes.

MATERIALS

NOBILITATO
LAMINATE

Il nobilitato è un pannello di legno truciolare rivestito con carta melaminica, che è un materiale sintetico costituito da fogli di carta sottile impregnata di resina melaminica. I melaminici proposti da Ceramica Dolomite, grazie allo sviluppo di carte sempre più realistiche, sono tutti "termostrutturati" e riproducono in modo molto realistico l'effetto del legno. Questa caratteristica, unita a doti notevoli di durezza e resistenza al graffio e ai solventi, rende questi pannelli delle soluzioni validissime, piacevoli alla vista e al tatto.

The laminate finish is a chipboard panel coated with melamine paper, which is a synthetic material consisting of of thin paper sheets impregnated with melamine resin. The melaminates offered by Ceramica Dolomite, thanks to the development of ever more realistic papers, are all 'thermo-structured' and reproduce the effect of wood very realistically. This characteristic, combined with remarkable hardness and resistance to scratching and solvents, makes these panels extremely valid solutions, pleasant to the eye and to the touch.

RIPIANI IN LEGNO NATURALE
NATURAL WOOD SHELVES

I piani in essenza di rovere e noce sono fra i più preziosi e necessitano di una certa cura. Il legno è un materiale "vivo", particolarmente sensibile al calore e all'umidità. Eventuali cambiamenti di colore nel tempo, dovuti alla luce, non rappresentano un difetto, ma al contrario sottolineano il fatto che si tratta di materiale naturale. La loro particolarità sta nella presenza di nodi, forellini, imperfezioni presenti sulla loro superficie, che denotano la loro autenticità e che aumentano il pregio e l'unicità di queste finiture.

Oak and walnut tops are among the most valuable and must be used with care. Wood is a 'living' material that is particularly sensitive to heat and moisture. Any changes in colour over time, due to light, are not a defect, but rather emphasise the fact that it is a natural material. Their particularity lies in the presence of knots, small holes, imperfections on its surface, which denote their authenticity and increase the value and uniqueness of this finish.

Per maggiori informazioni sulla componibilità tra gli elementi, consultare il listino prezzi.
La cartella colori e finiture disponibili si trova nella patella destra a fine catalogo.
